

## Purchasing for a Corporate or Public Organisation? – Open an ACCOUNT!

### *Seven Reasons to be cheerful!*

We know that in the corporate environment you often have to justify your choice of supplier, and it can be frustrating when the cost of administration seems to outweigh the value of the order. Well, we can give you seven good reasons to deal solely with us. Compare our services, and you'll soon understand why you won't find a lower price anywhere for any other similar quality product! Visit [www.SlidesDirect.com](http://www.SlidesDirect.com)

- 1. Cost** – Our SlideTime™ PowerPoint Template volumes are the highest quality available at the lowest possible price, and our Express Development Team will reduce the real cost of YOUR presentation.
- 2. Credit** – Registered credit account holders have a 21 days interest free period to pay. We are keen to make our working partnerships as simple as possible, so by opening a credit account, and raising an order through your normal purchasing channels, you'll be able to keep track of, and, financial control over spending. We won't process any order from you, without a purchase order being raised by you. The application form is available from [www.SlidesDirect.com](http://www.SlidesDirect.com)
- 3. Delivery** – we process and despatch your order within 24 hours of receipt, often the very same business day. Other delivery services can be arranged.
- 4. Quality** – we only use the highest quality equipment.
- 5. Security** – all work entrusted to us will be treated in the strictest confidence, in fact we routinely process sensitive and confidential data.
- 6. Technical assistance / after-sales** – we understand and commit to supporting your objectives and time-scale, with one standard service level that others aim to meet.
- 7. Technical merit / compatibility** – we offer both Windows and Macintosh solutions to your problems.

We hope that this has raised your interest in our services enough to visit our website, where you'll find many more free resources available. We would encourage you to pass this document to your purchasing co-ordinator with the Account Application, we're sure that it will save your organisation time and money!

Thanks for taking time to read this.
